RE: RTC on Shear Testing
Work Plan

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Response to Comments (RTC) on the soil-geosynthetic interface direct shear testing work plan.

U.S. DOE has adequately addressed U.S. EPA's previous comment. U.S. DOE must submit a revised work plan incorporating the RTC within thirty (30) days receipt of this letter.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
